Summit
**Education
Initiative** 

About Us

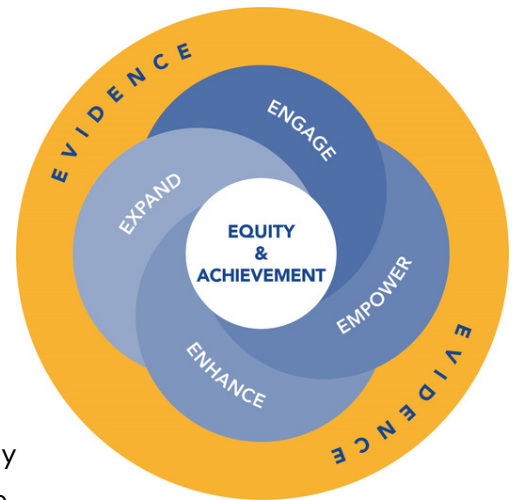

At SEI, we strive to inspire increased equity and achievement with research and evidence. We help drive continuous improvement to increase student success from cradle to career and strengthen our capacity to advance the mission.

We inspire action with evidence and research.

We build commitment to increased equity, achievement and educational attainment.

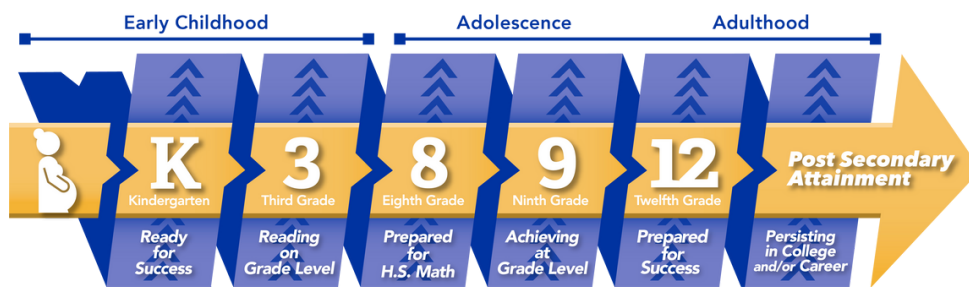

We engage and empower partners to increase student success from cradle to career.

We ensure the strength and sustainability of collective impact efforts in the community.

Together, we can help every student prepare for a career pathway that leads to a living wage. We organize collective, community-wide efforts at significant education milestones for greater impact. This is the ambitious work of **Summit Education Initiative: to help all students meet the high standards needed for the demands of the future.** This is our vision for student success in Summit County. **Every student. Every day. Cradle to career.**

Significant transitions across the cradle to career journey

Vision

- Summit Education Initiative envisions a future in which all Summit County students are prepared for success on a chosen path.

Mission

- Our mission is to increase personal and regional prosperity through educational attainment.

A Letter From David James

I am writing on behalf of Summit Education Initiative's (SEI) board of directors and staff to announce the date of our annual Community Report on Educational Attainment, "Their Success Is Our Success," which we will host on Thursday, October 19, 2023 at Greystone Hall in Akron, Ohio.

The event will begin with a cocktail reception at 4:30 p.m., then transition to our presentation of Summit County's Educational Progress Report around 5:30 p.m.

As we have transitioned out of the COVID-19 pandemic, our community is facing challenges in its return to "normal." The good news is that our county continues to make progress toward our goal in 3rd Grade Reading. Post-pandemic, we have seen declines in performance across Summit County in meeting our goals across the Cradle to Career Continuum. However, now is not the time to give up.

We must all work together to increase awareness of the importance of educational attainment as a key driver of personal and regional prosperity.

The problem is that we need to accelerate this growth. Even though we have become a more educated county over the past few years, we need to grow faster. Accelerated degree attainment translates into a more qualified talent pool of individuals ready to fill increasingly complex jobs. When this happens, our businesses thrive, and our community thrives.

Our Annual Community Report – Their Success Is Our Success – is SEI's community meeting where we report our progress based on the 2022-2023 school year's data. This is a critical event for SEI, and your support furthers our ability to lead this work. I hope that you will seriously consider sponsoring the 2023 Their Success Is Our Success event on Oct. 19th.

For their future,

A handwritten signature in cursive script that reads "David W. James".

Summit Education Initiative Executive Director,
David W. James, Ed.D
